PLEASE NOTE THAT LOAD SHEDDING WILL AFFECT YOUR READ RATE IF NO BACKUP POWER SUPPLY IS INSTALLED WITH YOUR CAMERAS

THANK YOU TO ALL NAVERICKS

The amazing results are achieved through the collective efforts of all role players including the Navic.Cloud technical and support teams, NAVIC™ Operations, the NNOC (National NAVIC™ Operations Centre), SAPS in all their various divisions (local Policing, Flying Squad, K9, CID (Crime Intelligence), covert operations, anti-drug unit, etc), action groups (antipoaching inland and offshore, missing persons, etc), farmer and rural protection structures, Municipalities, Local Law Enforcement, Armed Response and regional/national security service providers, Neighbourhood Watches (NHW's), Community Policing Forums (CPF's), patrollers and citizen champions. And very importantly the regional residents and businesses who contribute to this National crime fighting Initiative through the license fees paid for your ANPR (LPR) cameras to operate on navic.cloud. Should you wish to participate or get your community protected please contact us via www.navic.cloud

SPECIAL NOTICE

The provision of information by NAVIC™ is done so on the Terms and Conditions, disclaimers, protections and Terms of Use and other as stated on our website www.navic.cloud and / or through access to Navic.Cloud ecosystem. Please address us through www.navic.cloud should you have any queries or concerns. It is also worth noting that NAVIC™ has implemented systems and policies to ensure its compliance with The PoPI Act, PAIA, SAIDSA, PSIRA, MISS (Minimum Information Security Standards) Act, and the establishment of systems, structures policies and procedures to surpass even standards set by these organisations or structures. Further Navic.Cloud data structures utilise machine techniques in order to ensure advanced data protection, monitoring and access control/logging and data handling to ensure chain of custody should NAVIC™ be subpoenaed to provide data as evidence needed through the judiciary.
